

Meet Houda Bakkali! A Talented Digital Artist Who Brought Her Vision to Bahrain

April 14, 2023

Houda Bakkali is a renowned Spanish visual artist known for her bold use of color, innovative digital techniques, and empowering portrayals of women. Inspired by her mother, her work often focused on themes of strength, joy, and resilience, using digital tools to make art more immersive and universally accessible. Her unique style blended physical art with augmented reality, offering viewers interactive and personalized experiences that transcended time and space. Houda conducted an art exhibition titled "Digital Art, Digital Culture" at the Alliance Française of Bahrain, which ran until December 4, 2024. The exhibition was part of the global "Digital November" celebration, exploring the creative potential of technology in the arts.

Through this showcase, she invited audiences to experience the intersection of tradition and innovation, using digital platforms to bring her work to life in new ways. Her exhibitions have been featured internationally, from airports to cultural centers, making her a prominent figure in the digital art world. Houda Bakkali's work continues to inspire conversations about the evolving role of technology in creative expression.
